

# neoform K plus

## Disinfecting cleaner for surfaces and equipment

### Liquid concentrate

#### Fields of application:

- Combined cleaning and disinfection of surfaces and equipment in the food industry and in professional kitchens as well as surfaces and equipment that do not come into contact with food, such as e.g. in the pharmaceutical and cosmetics industry
- Also suitable in cooling areas up to 4 °C
- Also used for shoe sole hygiene in brush washing systems as well as disinfecting mats e.g. in hygiene sluices.

#### Performance spectrum:

- Bactericidal and yeasticidal according to the European Standards<sup>1</sup> and active against enveloped viruses according to RKI/DVV<sup>2</sup>
- Effectively removes contaminations from surfaces, equipment and floors and disinfects at the same time
- Excellent foam activity when used via foam devices
- Also suitable for use with Kimberly-Clark's refillable wiping system Kimtech\* Wettask\* DS
- Excellent material compatibility
- Suitable for all materials such as chrome nickel steel, standard steel, light and non-ferrous metals and their alloys as well as plastics
- Anodised aluminium<sup>1</sup> must be tested first
- Included in the IHO<sup>3</sup> list of disinfectants

#### Special properties:

- Excellent cleaning performance
- The application in Kimberly-Clark's bucket wipes system Kimtech\* Wettask\* DS fulfils the requirements of the current VAH recommendation<sup>4</sup>
- Free of perfumes and colouring agents
- VAH-listed<sup>5</sup>

### Application and dosage:

Dilute neoform K plus according to the below-mentioned dosing recommendations. Apply the working solution on the surfaces to be cleaned and disinfected resp. wipe the equipment to be cleaned and disinfected with the working solution. After the contact time has expired, thoroughly rinse the surfaces that come into contact with food with water of at least drinking water quality. The application temperature should not exceed 40 °C.

neoform K plus can be applied via wiping, dipping or foam method.

The solution should be renewed daily; in case of visible soiling more frequently.

neoform K plus can also be combined with Kimberly-Clark's refillable wiping system Kimtech\* Wettask\* DS. Place the roll of wipes into the wipes dispenser system. Fill from the prepared working solution (at least 0.5%) 2.0 l into the bucket or 0.75 l into the box. Tightly close the wipes dispenser system. After 60 min the wipes are completely soaked and ready for use. Pull out the soaked wipes through the opening of the dispenser in the required amount. After removal tightly close the dispenser system. The soaked wipes can be used for up to 28 days when the wiping system is kept tightly closed.

The VAH recommends<sup>4</sup> thorough disinfecting cleaning and drying after depletion and before replenishing the dispenser system. Kimberly-Clark's wipes system Kimtech\* Wettask\* DS is suitable for manual as well as automated reprocessing (thermostable up to 100 °C).

Application recommendations at 20 °C (bactericidal, yeasticidal)	
For cleaning and disinfecting surfaces and equipment (non-pre-cleaned) <sup>1</sup>	5 ml/l (0.5 %), 15 min
For disinfecting surfaces and equipment (pre-cleaned) <sup>1</sup>	5 ml/l (0.5 %), 15 min 10 ml/l (1.0 %), 5 min

# neoform K plus

Disinfecting activity (surfaces and equipment)		
	clean conditions (pre-cleaned)	dirty conditions (non-pre-cleaned)
bactericidal (EN 1276 and EN 13697)	5 ml/l (0.5 %), 5 min, 20 °C 10 ml/l (1.0 %), 60 min, 10 °C 30 ml/l (3.0 %), 60 min, 4 °C	5 ml/l (0.5 %), 15 min, 20 °C 20 ml/l (2.0 %), 60 min, 10 °C 30 ml/l (3.0 %), 60 min, 4 °C
yeasticidal (EN 1650 and EN 13697)	10 ml/l (1.0 %), 5 min, 20 °C 5 ml/l (0.5 %), 15 min, 20 °C 10 ml/l (1.0 %), 15 min, 10 °C 10 ml/l (1.0 %), 60 min, 4 °C	5 ml/l (0.5 %), 15 min, 20 °C 20 ml/l (2.0 %), 15 min, 10 °C 20 ml/l (2.0 %), 60 min, 4 °C
active against enveloped viruses (DVV/RKI) (incl. HIV, HBV, HCV)	10 ml/l (1.0 %), 15 min, 20 °C	

Shoe sole hygiene	
Cleaning of soles in brush washing systems	at least 1 ml/l (0.1 %)
Shoe sole disinfection in dis- infecting baths and disinfecting mats (bactericidal, yeasticidal) <sup>1</sup>	40 ml/l (4 %), 5 min, 20 °C

## General instructions on use:

- For professional use only!
- It is generally recommended to wear gloves when working with disinfectants.
- For economical and controlled dosage the use of manual dosing ancillaries such as mixing equipment or dosing accessories is recommended. Please contact us.
- Do not mix with other products.
- Storage and transport is only permitted in original packaging.
- Use disinfectants safely. Always read the label before use.

## Certificates:

The disinfecting activity has been confirmed.  
The service life and the compatibility in

Kimberly-Clark's wipes dispenser system Kimtech\* Wettask\* DS have been tested and confirmed by certification in accordance with the VAH recommendation.

We are pleased to provide certificates on request.

## Technical data:

pH-value	approx. 9.0 (5.0 – 10.0 ml/l, determined in deionised water, 20 °C)
Viscosity	< 50 mPas (concentrate, 20 °C)
Density	1.0 g/cm <sup>3</sup>

## Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:  
5-15 % non-ionic surfactants  
Active substances in 100 g:  
10.0 g didecyldimethylammonium chloride  
2.0 g N-(3-aminopropyl)-N-dodecylpropane-1,3-diamine

## Storage information:

Always store at a temperature between 0 °C and 30 °C.

Usable for 3 years when stored as recommended. For expiry date refer to the stamp mark on the label behind the hourglass symbol .

## Hazard and precautionary statements:

For safety information see EC safety data sheets. These are available at [www.drweigert.com](http://www.drweigert.com) under the category "Service/Downloads".

If applied according to the instructions for use, the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Safety Data Sheet.

<sup>1</sup> According to the European Standards EN1276, EN1650 and EN 13697

<sup>2</sup> Robert Koch-Institute / Deutsche Vereinigung zur Bekämpfung der Viruskrankheiten [German Association for the Control of Virus Diseases]

<sup>3</sup> Industrieverband Hygiene und Oberflächenschutz [Industry Association Surface Protection and Hygiene, Germany]

<sup>4</sup> Recommendation for checking critical points when using wipes dispenser systems in a pre-soak system for surface disinfection (Hyg Med 2012; 37-11), (VAH = Verbund für Angewandte Hygiene e.V. [Association of Applied Hygiene, Germany])
